ABOUT HIGH SOBRIETY

High Sobriety provides comprehensive mental health and addiction services for individuals to achieve their goals, live healthy lives, and have a chance to realize their potential, which may or may not include total abstinence. High Sobriety respects diversity and understands that recovery is self defined and self determined. For generations we have been told marijuana is a gateway drug, this has been debunked by science and common sense. At High Sobriety, we believe marijuana can be an exit drug.
